

CS702 – Computing Lab

Assignment 1

1. Write a C program to delete an element from an array at a specified position or element.
2. Write a C program to input elements into an array and find the reverse of the array.
3. Write a C program to find the largest and the second largest element in an array.
4. Write a C program to read elements in two matrices and multiply them.
5. Write a C program to read elements in a matrix and check whether the given matrix is a symmetric matrix or not.
